

reloved · cost model

Prepared for Sheetal Ahuja · By Totem Interactive · 29 Aug 2026 · Rev 12 · All amounts in ₹ (INR).
Two wallets — do not mix:

- 1. **One-time / yearly payments** — paid **up front in full** (domain, cPanel, DLT). Not split into monthly cost.
- 2. **Monthly run-rate** — only usage (SMS, email, Firebase API/DB, Gemini, MapTiler) as **Best** → **Mid** → **Worst** ranges.

Totem build fees excluded. Per SOW \$4, third-party charges at approved actuals.
Stack: GoDaddy (**domain** + **cPanel**: mail, static site, **item photo disk**) · **Firebase Blaze** (API Functions + Firestore DB only — **not** Firebase Storage) · Brevo · MSG91 + **TRAI DLT** · Gemini · MapTiler.
Photos: stored on **cPanel disk** (included in the ₹2,388/year hosting plan). Served as `reloved.digital/uploads/...` or `/images/...` **No separate Firebase Storage bill.**

1 — ONE-TIME / YEARLY PAYMENTS (PAY ALL AT ONCE)

These are **not** monthly. Place them when due (usually once a year). Do **not** add them into the MAU monthly tables in \$4–\$5.

Item	When you pay	Type	Amount (₹)
Domain <code>reloved.digital</code>	On renewal date	Yearly — one-time payment	₹398 / year ✓
cPanel (mail + static site + photo storage on disk)	On renewal date	Yearly — one-time payment	₹2,388 / year ✓
Hosting subtotal (year)	Same cycle	Yearly — one-time payment	₹2,786 / year
DLT Principal Entity (PE) registration	At SMS go-live (then each renewal year)	Yearly — one-time payment	₹5,900 / year (₹5,000 + GST)
DLT Header + OTP template + PE→MSG91 bind	Setup	One-time (no fee)	₹0
MSG91 assisted DLT onboarding (optional)	Setup only	One-time payment (never renews)	₹1,770

CASH TO PLACE UP FRONT (YEAR 1)

Bundle	Amount (₹)
Domain + cPanel only	₹2,786
+ DLT PE (needed for production SMS OTP)	₹2,786 + ₹5,900 = ₹8,686
+ optional MSG91 DLT help	₹8,686 + ₹1,770 = ₹10,456

Year 2+ renewals (typical): Domain **₹398** + cPanel **₹2,388** + DLT PE **₹5,900** = **₹8,686 / year** (MSG91 help does not repeat).
Firebase Blaze: **₹0** to open the account — no yearly plan fee. Monthly line below is Functions + Firestore only if free tiers are exceeded. **Firebase Storage is not used** (photos stay on cPanel).

2 — BEST / MID / WORST ASSUMPTIONS (FOR MONTHLY USAGE ONLY)

3 — WHY MONTHLY USAGE IS NOT “1 SMS PER USER”

Login OTP (email or SMS), 7-day re-login, Give (2 emails + Gemini per photo), Claim (2–3 emails), Wall reads, map, waitlist, admin bulk — multiple vendor calls per active user.

4 — MONTHLY USAGE ONLY (₹ / MONTH) — BEST → MID → WORST

Does not include domain, cPanel, or DLT PE. Those are \$1 one-time / yearly payments.
Does not include photo storage — photos are on cPanel disk (already paid in \$1). Firebase Storage is **not** in this model.

Optional later (ops, not in table): **Borzo / pickup ₹40–60 per delivery.**

5 — HOW TO BUDGET (KEEP YEARLY AND MONTHLY SEPARATE)

Bucket	What to place	Amount
A. One-time / yearly	Domain + cPanel (incl. photo disk) + DLT PE (+ optional MSG91 help)	₹8,686 – 10,456 in Year 1 (see §1)
B. Monthly run-rate	SMS + email + Firebase Functions/Firestore + Gemini + MapTiler only	Use MAU row in §4 (Best → Worst)

Example — pilot at 100 MAU

- Place now (yearly): **₹8,686** (or **₹10,456** with MSG91 help)
- Each month after that: **₹7 – 98** usage only

Example — 1,000 MAU

- Yearly still: **₹8,686** (same hosting + DLT; does not grow with MAU)
- Each month: **₹68 – 1,840** usage

6 — WHAT DRIVES BEST VS WORST (MONTHLY ONLY)

Toward Best	Toward Worst
Steer login to email OTP	Most users on SMS OTP
Sessions stick (fewer re-OTPs)	Weekly re-login + OTP retries
Light Give/Claim months	High donate/claim + max photos
No big email blast	Newsletter / burst days
Map lightly used	Every visit loads map

All figures INR. **Yearly / one-time payments are never amortised into the monthly MAU tables.** Photos on cPanel — no Firebase Storage. Confirm live vendor rate cards before budget sign-off. GST as applicable.
