Prepared for Sheetal Ahuja · By Totem Interactive · 22 Aug 2026

Modelled estimates (ranged). Domain + cPanel = confirmed actuals. Totem build fees excluded. Per SOW \$4, third-party charges at approved actuals.

**Stack:** GoDaddy (domain + hosting) · Brevo (email/OTP) · MSG91 + **TRAI DLT** (SMS OTP) · Gemini (AI cataloguing) · MapTiler (homepage map, live today). Pilot backend on AWS Lightsail (~\$3.50/mo); tables use SOW cPanel model.

**MAU assumptions:** ~4 emails/user/mo · ~0.5 SMS OTP/user/mo (phone login) · ~0.5 AI photos/user/mo · ~1 map load/user/mo. Email OTP needs **no DLT**.
