The first 500 deliveries, mapped out

Outside Mumbai — optional, priced per shipment

Shadowfax/Borzo only cover Mumbai. An order going outside Mumbai (we already have one to New Delhi) ships via Shiprocket instead — not a fixed rate, it depends on distance, zone and weight. Typical range for a light apparel parcel: **₹60–250 per shipment**. Not part of the totals above; billed at actual cost per shipment as these come up.

From delivery 16 onward, Shadowfax and Borzo are the couriers in use — Porter isn't part of the plan going forward. The upper end of the courier range now includes a buffer for farther pickups and drops, not just nearby ones.

Stage	Deliveries	Courier	Courier cost	SMS + calls	Total
